New York Market Opened at General Declines.

NEW YORK, Aug. 17 .- The stock market opened at general declines, compared with yesterday's final sales. Mexican Central started at a decline of 4%; Smelting showed a loss of 1%; Brooklyn Rapid Transit and Southern Pacific lost 1; Louisville and Nashville, %; St. Paul, 1/2, and New York Central, % Reading opened % lower and declined % further. Great Northern preferred, Northern Pa cific and Anaconda showed opening declines of 1/4.

At 10:20 the market showed a rallying tendency and in many cases prices re-covered to about yesterday's final.

11 a. m.—The market made a fair show of strength for a time after the opening decline and then remained quiet for a short interval, when renewed selling appeared and the downward moveing appeared and the downward movement started, and was in full swing at the end of the first hour. Union Pacific, which was closely watched as a key to the market, dropped from 123% to 120%. Reading fell 1% to 86, and Amalgamated lost 1%. The selling of these stocks caused renewed raids all around the room, and prices generally yielded from 1 to 2 points before another rally occurred. This came just after the end of the hour. A large majority of the members of the New York Produce Exchange have signed a petition to the board of managers to have the exchange closed on Saturday, August 31, the last business day preceding Labor Day.

The New York stock exchange committee on stock lists directs that \$35,612,-800 preferred stock of the Southern Pa-cific Company be added to the list, mak-ing a total amount listed of \$75,182,500.

Directors of the Federal Mining and Smelting Company declared, in addition to the regular quarterly dividends of 1% per cent on the preferred stock and 1½ per cent on the common stock, an extra dividend of ½ per cent on the common issue. This extra dividend declaration, however, was 2 per cent smaller than those announced for the previous three quarters, when 3½ per cent each was declared, and 1 per cent least than the extra clared, and 1 per cent less than the extra dividend declaration at the corresp time last year. On March 15 and ne 15, 1906, the extra dividend on the mmon stock was 2½ per cent.

An officer of a leading corporation says that for \$1,000,000 he would be glad to underwrite the Standard Oil Company against loss from that \$29,240,600 fine. He would stand to win \$1,000,000 or to lose \$28,240,000.

Wall Street is puzzled to know just what the President may say in his Frovincetown speech that will be of a "reassuring" character. He is not, as a rule, conciliatory in his utterances, and the Street fears there may be "a sting in the tail" of what he may put out.

Reports that the Interborough-Metropolitan Company is conptemplating a reorganization of its numerous subsidiaries and a discontinuance of the 5 per cent dividends on its preferred stock, as a result of its intention to pass the 7 per cent dividends on the guaranteed stock of the Metropolitan Street Rall-way Company, were circulated broadcast throughout the financial district and were not denied by that corporation's officers and directors, who merely refused to discuss them.

Few, if any, stocks traded in on the New York Stock Exchange have attracted more attention than Smelters by reason of sudden and violent fluctuations in price. Its decline has amounted to over 50 points since the commencement of the year, and this in spite of an increase in the dividend rate from 7 to 8 per cent.

COTTON MARKET LOWER

NEW YORK, Aug. 17.—The cotton market opened active and the undertone was easy in sympathy with the mar-ket at Liverpool. There was consider-

able unloading here, a part of the cot-ton going to Wall Street interests who were covering shorts.

At 10:30 a. m. the market was six points under last night's closing.

Are Not Quite Clear.

Opinion Will Be Handed Several Cases Discovered Down in a Few Days.

An opinion by the Comptroller of the Treasury on the questions involved in the payment of increased salaries to officers and teachers which were submitted to the District Auditor by the secretary of the Board of Education recently and referred by the Auditor to the Comptroller, is expected to be 23% handed down within a few days. Until this decision of the Comptroller rs re-ceived no salaries to the officers and teachers concerned can be paid.

Provisions Not Clear. The meaning of the provisions of the new school law in several instances are clear neither to the board of education or the auditor. One of these applies to the transfer of the assistant superintendent of schools to the position of supervising principal at a salary of \$2,700. As the law specifies that supervising principals for the year 1908 are to receive but \$2,500 each, the auditor is unable to determine whether to pay the larger or smaller amount.

Another is the transfer of the principal of the Normal School No. 2 to the position of assistant director of primary instruction with the maximum salary of \$1,650, that of the assistant director's position. The law in this case again specifies that the salary of assistant directors of primary instruction for 1908 is only \$1,450.

The Safest Investments

Are those that do not depend upon the financial responsibility or the stability of any individual or corporation. First deeds of trust (mortgage) notes liberally secured on good real estate in the District of Columbia, constitute "gilt-edge" investments. These are the only kind we make and supply to investors. They bear interest, payable semi-annually, at the rate of Five per cent per annum, and may be had of us in amounts from 1500 and upward at par and accrued interest. should not be adjudged in contempt of court. The order is returnable next Wednesday.

This order is based upon the fact that on July 8 an injunction was issued prohibiting the defendants from selling or encumbering certain stocks. The defendants have since entered suit to compel an accounting, and asking the appointment of a receiver, which, it is claimed, is in contempt of the injunction order.
